## DETAILED ACTION

### *Election/Restrictions*

1. Applicant's election without traverse of claims 11-20 in the reply filed on January 24, 2008 is acknowledged. Claims 1-10 and 21-41 stand withdrawn.

### *Information Disclosure Statement*

2. The information disclosure statement (IDS) has been considered by the examiner.

### *Claim Rejections - 35 USC § 102*

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claim 11 is rejected under 35 U.S.C. 102(e) as being anticipated by Van Buel, US Patent Number 7,094,506.

The prior art reference describes, teaches and suggests the claimed subject matter. See claims 10 and 11 of the patent. Also review the drawing with particular attention on the plurality of exposure devices, 132-1, and 132-2. It is clear that this apparatus has two or more exposure sources arranged along a line that is in the direction of the movement of the substrate during exposure.

Art Unit: 1795
